

SDI Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_51757
Title of the Manuscript:	In-Vitro Fluorescence Spectroscopic Analysis of the Interaction of Glimepiride with Bovine Serum Albumin (BSA)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript focuses on the interaction of an antidiabetic drug, glimepiride with bovine serum albumin (BSA) by fluorescence quenching method in two different temperatures(298K and 308K). It may be accepted after the following remarks Why this temperature values were chosen. It should be selected three different temperature instead of two different temperature. Chemical structure of Glimepiride should be drawn again	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
