SDI Review Form 1.6

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Manuscript with scientific relevance; I suggest these adjustments for material improvement:</p> <ol style="list-style-type: none"> <li>1) <b>Material And Method:</b> From line 57 there is no description of the method used to achieve the study objectives. This point is critical to understanding the work done. Include methodological design, research period, criteria for inclusion of study participants.                             <ol style="list-style-type: none"> <li>1.1) Line 65 to 74 should be redirected to study protocol.</li> </ol> </li> <li>2) <b>Study protocol:</b> Define what would be high risk criteria present in line 86.                             <p>Lines 90 to 94 concern results analysis and statistics and not the study protocol. I suggest creating the subtitle "Analysis of results and statistics" and describing this information.</p> </li> <li>3) <b>Results:</b> In the first paragraph of the results item there is the quotation of "study requirements" (line 98), but there is no description of what these requirements are. Perform the inclusion.</li> <li>4) <b>Conclusion:</b> include this item with the conclusions obtained by the researchers through the results presented.</li> </ol>	
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>1) <b>Abstract:</b> Structure the abstract into objective, method, results, and conclusion because the way the summary is presented makes reading tiresome and presentation confusing to the reader.</li> </ol>	
<b>Optional/General</b> comments	_____	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
