PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Dear editor,</p> <p>The introduction part is too long. It also has some paragraphs that need to be reformulated/(the first one especially). Materials and methods: They have to describe the exact origin of the materials that they used. Also some details about the criteria that they used to choose the regions that they investigated. Add more information about the molecular extraction methods.</p> <p>The manuscript has also a lot of grammar mistakes, and some sentences that need to be reformulated. That is why, the English written style should be revised by an English native speaker. Thank you! Best regards!</p>
