PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> • Title should be simple and informative so the initial word "Dual" is not required. <p>Author has written in Abstarct That " methanol extract had the highest phenolic content of 62.28 mg/g. " but did not tried or standardized the extraction solvent, author used only methanol so please specify. or optimize the extraction protocol for this particular plant sepcies. Because different plant gives different yield with different solvent systems. Or re-write the sentence. Some suggestions are mentioned in the MS with highlighter and comments.</p>	
Minor REVISION comments	There is lot of flaws in English language. before acceptance need to improve English language.	
Optional/General comments	It is a very good study and author identified a new source of antioxidant bioactive copounds with antibacterial activity. They have used standard protocols, but some revision are required.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
