

SDI Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_59765
Title of the Manuscript:	AN OBSERVATIONAL STUDY ON THE MODE OF ACTION OF FERULIC ACID ON COMMON DENTAL PATHOGENS - AN IN SILICO APPROACH
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	As it is a pioneering study, it opens up very interesting and thought-provoking questions. I would just like a little more emphasis on the importance of these oral pathogens that are part of the "red complex".	
Minor REVISION comments		
Optional/General comments	Study very well conducted. Well-structured writing, however, as the author himself emphasizes, leaves many questions open to be evaluated in new studies in vitro and in vivo.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
