

SDI Review Form 1.6

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_ JSRR_53734
Title of the Manuscript:	PREDICTION OF THE EFFECT OF DEMOGRAPHIC CHARACTERISTICS ON PARITY USING POISSON REGRESSION MODEL
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sd-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This paper aims to predict the effect of demographic characteristics on parity using Poisson regression model (PRM). The literature survey has covered many papers concerned with this idea, from 2000 to 2018. Data was taken from two hospitals and it was imported to data.table package in R. PRM was implemented on that data and results are displayed adequately.	
Minor REVISION comments	Results and conclusion as a bit long, but the data is taken from only two hospitals in Kenya...this can't be envisaged as applicable to the whole country.	
Optional/General comments	NONE	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
