

SDI Review Form 1.6

Journal Name:	Ophthalmology Research: An International Journal
Manuscript Number:	Ms_OR_63054
Title of the Manuscript:	Effect of the COVID-19 pandemic on contact lens wear in Greece
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The introduction does not introduce the purpose of the work, it only puts the reader in the context of the pandemic. I believe that a paragraph is needed to guide the purposes of the work.	
Minor REVISION comments	Table 1 has rows that can be excluded. The formatting could be homogeneous (or centered or lateral, not mixed). There are many spacing flaws, double parentheses. In item 2.2 the second paragraph can be unified with the third, removing some verbose parts. You can change the repetitive sentence "The questionnaire" for "It was".	
Optional/General comments	Particularly I do not think the penultimate paragraph of the discussion is necessary, it does not lead anywhere.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
