

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_55163
Title of the Manuscript:	Influence of the water nature on the two-phase flow in an air-lift column
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There are not any differential equations (either continuity, momentum, energy, concentration etc.) that govern the flow. The Author (s) supposed to show the method they used to solve the governing equations.	
Minor REVISION comments	The author (s) should remove the word "objective" from the abstract and write "aim or goal"	
Optional/General comments	I don't know the type of reference (referencing) the author (s) used. But whichever the type, the author should remove the word "year" in the reference.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
