PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The structure of abstract is not clearly organized I tried to indicate on manuscript Discussion and the result is too long an needs to comprehensive Discussion may incorporate the methods and result they investigated. The result must be short enough (the correlation of altitude with magnetic intensity and the scientific rational has to justified)	
Minor REVISION comments	Key words may not be as phrases	
Optional/General comments	The study is not organized well I tried to indicate with different colours with my intention Red colour to be remove from manuscript Green colour to be added Blue colour to insert some indicated important Generally I put the structure of abstract to be improved	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
