Manuscript Title: Contextual Expositions of Igbo Proverbs in Selected Mike Ejeagha's Folk Songs

My final decision is positive. I think that the last version of the paper can be published.

Some corrections are needed. These are marked on the **attachment**.

Also,

- **Introduction part**

What is the benefit of this study?

Why the author selected only two songs to compare and get the conclusion? These should be explained.

In Igbo culture, the first son is the head of the family/custodian of the tradition. Does the author hold it true...because in present research era correctness of such proverb can't be substantiated? Reference should be given.

- Check your punctuations

- **Methodology section**

This section should be written based on the reference.

Content analysis application might be explored.

- **References should be checked.**

The paper is very good in analysis but I feel little lack of proper use of citations that needs to be done. The author has also to correct words which are used in this paper.
