

**Editor's Comment:**

Taking into account the results of the manuscript evaluation process and three generally positive review reports and authors' feedback, I can state that the manuscript 2021/JSRR/64891 entitled "COVID-19: Impact-Losses, Reboot-Gain and Agriculture" by Anil Kumar, Balkrishna S Bhople, Arun Kumar, Renu Kapoor and Balwinder Kumar could be accepted for publication in Journal of Scientific Research and Reports after minor revision: the table included in the text should have a number and a title.
