General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The manuscript is written considering all valid arguments. However, there are some issues that need author reassessment.</p> <ol style="list-style-type: none"> 1. The data presented in figures were also mentioned in the text duplicating the same. This can be avoided unless authors want to put some points across that is not visible in the figures. 2. The sentence formation in 'results and discussion' is repetitious and needs revision. 3. It would be advisable to have separate sections for results and discussion instead of combining them into one. 	
Minor REVISION comments		
Optional/General comments	<p>Authors can add a figure depicting the type of impaction/classification of impaction in order to have a better understanding of the concept.</p>
