

Journal Name:	<a href="#">Asian Journal of Medicine and Health</a>
Manuscript Number:	Ms_AJMAH_58616
Title of the Manuscript:	Haematological Alteration in Cement Loaders within Port Harcourt Metropolis
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy> )

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Just try to explain more in detail that why platelet count is increased in cement loaders as compared to the control group.</p> <p>In the end, it is better if you elaborate about the advantages and limitations of your study.</p>	
<b>Minor</b> REVISION comments	Just change the word alteration with the alterations in the title as in the study it is shown that multiple hematological parameters are studied.	
<b>Optional/General</b> comments	The study design, protocol and implementation process are very good and methodical. The figures shown in the study are impressive.	

**PART 2:**

---

	<b>Reviewer's comment</b>	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p> <p>Yes.</p> <p>Because in the study, you are taking blood samples and no where it is mentioned that the ethical clearance was taken to conduct the study from the relevant ethical committee. If the ethical clearance was taken, mention it in the study in order to rectify the ethical issues.</p>
