Compulsory REVISION comments	<p>Congratulation to your work.</p> <p>Based on study result it show that the housing condition of people in Calabar Nigeria are very poor.</p> <p>Here are some of my feedback:</p> <ol style="list-style-type: none"> 1. There may be some additional analysis that could be done to improve and add value to the result ie correlation/association analysis between variable 2. Is there any strategies that can be done by the community to improve their housing & health? Does this problem is only the responsible of the government? And are you sure with economic improvement will improve their house and their health condition? Considering that the community has low awareness on their own situation? 3. Can you add more information on collaborative role with other sector done by the government (if any)? 4. Do you think it is possible "for poor people has a healthy house"? 5. In the discussion, you can add learning from other countries with similar condition
