

SDI Review Form 1.6

Journal Name:	Asian Journal of Geological Research
Manuscript Number:	Ms_AJGER_51377
Title of the Manuscript:	Seismic Attributes Mapping and 3D Static Modeling of Reservoirs within "OYA" Field, Offshore, Niger Delta
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The author had done a good work with very nice and straight idea but the ideas are not logically put together to enhance better understanding of his article. From the Abstract downward a lot needs to be done. For instance his Abstract has about three paragraphs instead of one and not summarized enough. His methodology is cumbersome. He should check for typographic errors and his use of concord. Inconsistence in font face in fig. 2 etc. He has very good diagrams but the legends and some labelling are not clear. His result and discussion section should be revisited for better understanding.	
Minor REVISION comments		
Optional/General comments	I suggest the author take his time to review previous works on the subject matter to see how best to put his work together and at the end contribute to the existing knowledge of geology.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
