

SDI Review Form 1.6

Journal Name:	Asian Journal of Physical and Chemical Sciences
Manuscript Number:	Ms_AJOPACS_67016
Title of the Manuscript:	REVIEW OF OILFIELD CHEMICALS USED IN OIL AND GAS INDUSTRIES
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There are issue with format and some elements of English usage. The manuscript needs to be checked carefully. Generally, there is a lack of up to date references. In a rapidly-changing activity, the most modern references are necessary for such a review. In my opinion, this does not offer any updated information compared with, for example, the text by Kelland "Production Chemicals for the Oil and Gas Industry", CRC Press, 2009 ISBN 978-1-4200-9290-5.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
