PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. In abstract – Write the significant points related to background, methodology and findings alone. The other information like Data was coded and analyzed using SPSS version 20.0 and presented in form of tables, graphs and charts can be removed 2. After introduction, the objectives can be written clearly. 3. In methodology, itself written the qualitative data themes and subthemes related to the study. It can be written as per the objective order in the result chapter. 4. In results, slightly confuse the viewers because not mention the objectives in priority base and repeated the same information in tables and in description hence can be reduce if possible. 	
Minor REVISION comments	In discussion, if pos can include the recent studies.	
Optional/General comments	In recommendations, include futuristic aspects of the study
