Type of the Article	Case study

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy> )

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Abstract: need to be reconstructed in order to be more obvious and interested for readers. Introduction: need some revisions to be informative about Adie's syndrome. Please mention the place of diagnosis and management. In diagnosis why use the diluted form of pilocarpine? Please write the reference. References: too old especially 1, 2, 3, 4, 9, and 15. The manuscript has no update references.	
<b>Minor</b> REVISION comments	Discussion: not interested to readers and need some revisions and grammar corrections in order to be informative.	
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
