

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_49187
Title of the Manuscript:	HYPOGLYCAEMIC STUDIES ON THE LEAF EXTRACTS OF <i>Brillantaisia guianensis</i> P.beauv ON BLOOD GLUCOSE LEVELS OF ALLOXAN-INDUCED DIABETIC WISTAR ALBINO RATS
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

[SDI Review Form 1.6](#)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Title proposal Phytochemical composition and hypoglycemic activity of aqueous extract of <i>Brillantaisia guianensis</i> P. beauv in alloxan-induced diabetic albino wistar rats</p> <p>General structuring of the manuscript to be reviewed strictly following the instructions to the authors</p> <p>The authors used two different reference systems in the same manuscript: author's date and Vancouver. Comply strictly with the instructions to the authors of the journal</p> <p>Section Materials and methods should be update by specifying the essential elements allowing other authors to duplicate the experiment elsewhere</p> <p>Introduction too long whose structure is to be reviewed; do not put subtitles in the introduction. Introduction breaks the problem and justifies the choice of the subject of the study</p> <p>The purpose of the study was not clearly stated at the end of the introduction</p> <p>Section « Materials and methods » : Repetition of chromatography conditions. Write only the conditions specific to the technique</p> <p>Add a statistical analysis paragraph at the end of the MATERIAL AND METHODS section</p> <p>What is the difference between Tables 8 and 9? Authors must clearly present what they want to express</p>	
Minor REVISION comments	<p>Ligne 24 : Write ' Keywords' in one word</p> <p>Lines 30 to 33: the definition of diabetes mellitus according to the ADA is not fair</p> <p>In paragraph 1 of the introduction, classification and clinical signs of diabetes are not necessary</p> <p>Lines 48 to 50: The study was done in Nigeria, local data from Nigeria are more appropriate</p> <p>Figure 1 should be positioned in the Material and Methods section for showing plant material. Indicate the source of Figure 1 please</p> <p>Table 1 not necessary for this study</p> <p>Lines 96 and 97: Specify the laboratory that manufactured the reagents</p> <p>« Sample collection » must be Replace with « Plant Material »</p>	

SDI Review Form 1.6

	<p>Lines 162 and 163: Incomplete sentence</p> <p>Table 2: Define the acronym S / N ID</p> <p>In the RESULTS section, the presentation of the results is to be reviewed. Please present table 6 in prose</p> <p>Make the call numbers of the tables in the text consistent with those of the table headings</p> <p>Table 9: The title of Table 9 indicates plasma glucose while in the table it is written plasma triglycerides. The percentages of reduction as presented are not percentages: so to see again</p> <p>Line 346 to 350: Sentence to review</p>	
<p>Optional/General comments</p>	<p>Original work but poorly presented as a draft article. To be corrected by experienced authors in scientific writing</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
