	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>Open response questions</p> <p>Are there any additional comments you wish to make about the manuscript???</p> <p>The manuscript entitled "Prevalence of malaria and intestinal parasite among children in muslim schools, port harcourt, rivers State, Nigeria" presents interesting findings from an study on the prevalence of intestinal parasites and malaria in school children. Malaria and intestinal parasites are a major public health problem, especially in Sub-Saharan African countries with low incomes and limited health infrastructures. Overall the manuscript has been written well. However following points to be considered for revising the manuscript for a better understanding.</p> <p>1-Please complete in the presentation of the study area the characteristics of the schools including their infrastructure and link to the results in the discussion. This would allow the reader to understand the risk factors related to the exposure of students in the schools.</p> <p>2-State the study limitations</p>	
Optional/General comments
