PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> The authors have presented an interesting case of heterotopic gastric mucosa in the gallbladder mimicking gallbladder cancer. However, the manuscript needs to be rewritten in proper English language by native English-speaking professional in order to be suitable for publication. Why was laparoscopic cholecystectomy not done in this case? Was intraoperative frozen section analysis was done? Please mention about the postoperative course of the patient and about the last follow up of the patient. Please provide histology images showing heterotopic gastric mucosa if possible.
