

SDI Review Form 1.6

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_55704
Title of the Manuscript:	COMPARATIVE STUDY OF DIODE LASER Vs DIATHERMY IN SOFT TISSUE SURGICAL PROCEDURES OF ORAL CAVITY
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The paper is structured as a clinical report, and although interesting it can be improved with some additions especially in term of histopathology. If possible provide histo pictures of the 3 different modalities and discuss the differences (that will be so evident) at histological point to better conclude on their differences. Some errors during writing are detectable, but the English language is good. Look to some adjunctive references to guide your histological description on differences. As example look to the study of long lasting duration of this research group on laser</p> <p>1: Limongelli L, Capodiferro S, Tempesta A, Sportelli P, Dell'Olio F, Angelelli G, Maiorano E, Favia G. Early tongue carcinomas (clinical stage I and II):echo-guided three-dimensional diode laser mini-invasive surgery with evaluation of histological prognostic parameters. A study of 85 cases with prolonged follow-up. Lasers Med Sci. 2020 Apr;35(3):751-758. doi: 10.1007/s10103-019-02932-z. Epub 2019 Dec 13. PubMed PMID: 31834561.</p> <p>4: Capodiferro S, Loiudice AM, Pilolli G, Lajolo C, Giuliani M, Maiorano E, Favia G. Diode laser excision of chondroid lipoma of the tongue with microscopic (conventional and confocal laser scanning) analysis. Photomed Laser Surg. 2009 Aug;27(4):683-7. doi: 10.1089/pho.2008.2359. PubMed PMID: 19694511.</p> <p>2: Capodiferro S, Maiorano E, Loiudice AM, Scarpelli F, Favia G. Oral laser surgical pathology: a preliminary study on the clinical advantages of diode laser and on the histopathological features of specimens evaluated by conventional and confocal laser scanning microscopy. Minerva Stomatol. 2008 Jan-Feb;57(1-2):1-6, 6-7. English, Italian. PubMed PMID: 18427366.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

Reviewer Details:

Name:	Saverio Capodiferro
Department, University & Country	University Of Bari, Italy
