

SDI Review Form 1.6

| | |
|--------------------------|---|
| Journal Name: | Physical Science International Journal |
| Manuscript Number: | Ms_PSIJ_57825 |
| Title of the Manuscript: | On a possible logarithmic connection between Einstein's constant and the fine-structure constant, in relation to a zero-energy hypothesis |
| Type of the Article | |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | <ol style="list-style-type: none"> 1) Basic content of the paper is new and useful in view of quantum gravity. 2) It needs a major revision in all aspects. 3) Applications, experimental setup, predictions etc are missing. 4) Introduction, motivation, discussion etc are required. 5) Supporting references for variation of fine structure ratio and gravitational constant are required. 6) More references can be added. 7) Abstract and Conclusion can be modified for better presentation. | |
| Minor REVISION comments | | |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| Are there ethical issues in this manuscript? | (If yes, Kindly please write down the ethical issues here in details) | |
